Nepal with its historic importance, rich in cultural heritage and unique nature is an attractive, scenic and safe tourist destination in the world. By conserving and promoting Nepal's natural, cultural, biological and man-made heritage, it is aimed to attract more than two and half million tourists by the year 2025. Some major objectives for visit in Nepal are recreational, trekking, mountaineering, adventurous games and religious activities. Tourism is one of the potential sectors for the economic development of Nepal and one of the major sources for gaining foreign currency.

The Nepalese tourism sector has been severely affected by the covid-19 global pandemic, similar to other nations in the world. The Government with an ambitious target of two million tourist arrival is well prepared to celebrate Visit Nepal Year 2020 however, the huge investment has gone futile yet. The policies and plans of the Ministry to resurrect the tourism sector have kindled the hope of rejuvenating the investments.

Beside mountaineering, trekking and cultural site visit in and near Kathmandu valley, the country's rich cultural diversity, wildlife and bird watching jungle safari, geological diversity and many more enticing natural beauty of Tarai, Hills and Mountains of Nepal are yet unexplored to international tourists. Ministry is working to explore all these possibilities to promote Nepalese tourism with the anticipation of increased number of tourist influx, the average duration of stay and total average expenditure during visit.

The ministry is pleased to publish the annual "Nepal Tourism Statistics 2020" book. Ministry puts its higher effort into collecting all the tourism-related data through various government agencies and compiled in this single book. This book not only contains the tourism arrival data but also presents vivid information of all tourism-related economic activities including length of stay, the purpose of visit and their activities, revenue and expenditure, foreign capital gain and other miscellaneous information. The sources of data and information include the Department of Tourism, Department of Immigration, Department of Wild Life Conservation, Nepal Rastra Bank, Central Bureau of Statistics, Nepal Tourism Board and other related organisations.

I am confident that this annual statistics book published by Ministry will be helpful for policymakers, researchers, innovators, entrepreneurs, planners, students and all other interested. I hope this document will be very helpful for the further improvement of the tourism sector of Nepal.

I would like to extend my sincere thanks to all government and non-government organisations for their valuable contribution to this book.
